

Creation of the Universe

The magnificent earth

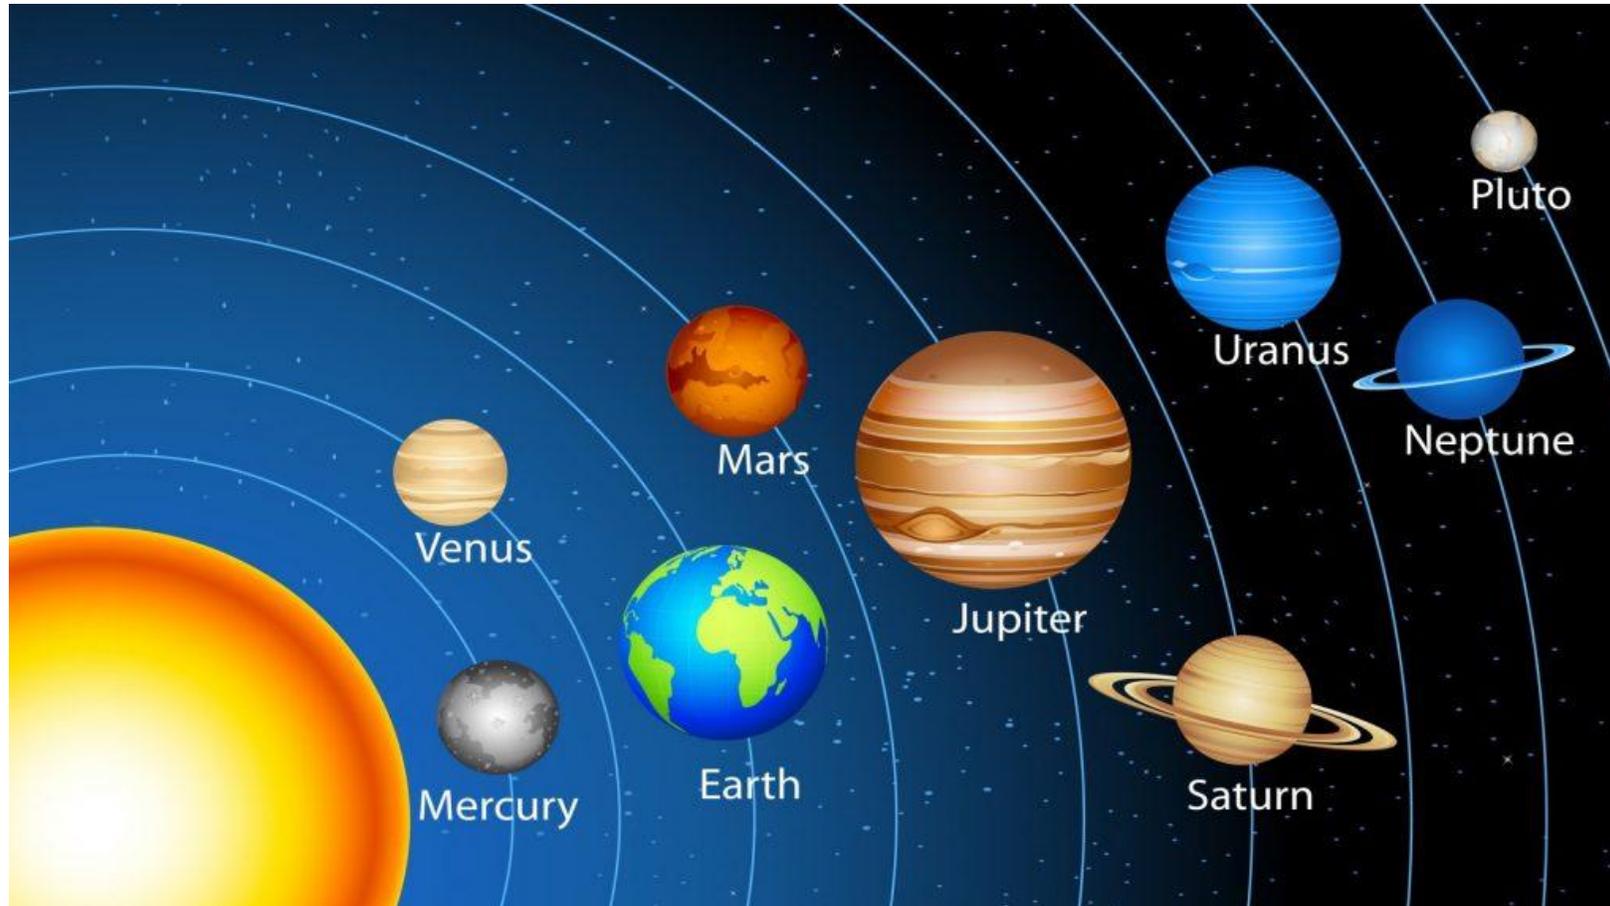

The earth is round!

The moon to rule the night

Our solar system

Venus

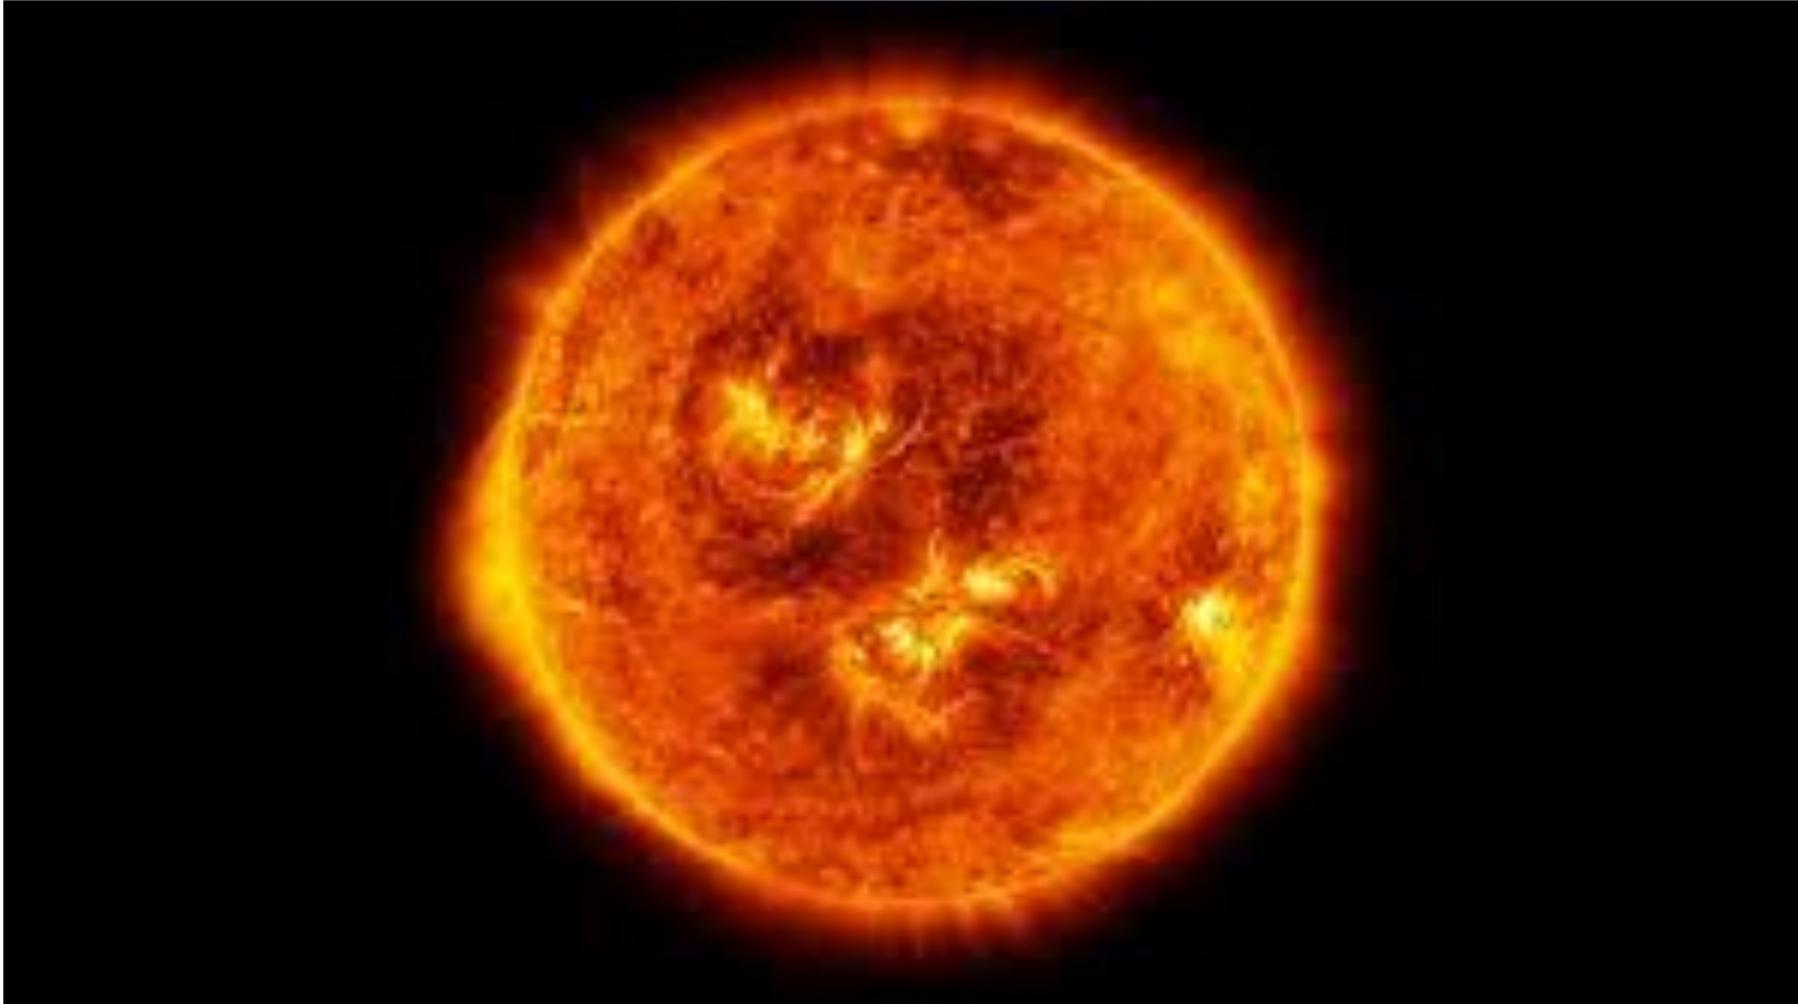

Mars - the red planet

Saturn

The sun to rule the day

They shall be for signs

The Plaiedes

Orion

The number of stars in our galaxy

100,000,000,000,000

A spiral galaxy

The eagle nebula

Orion nebula

The number of stars in the universe

10,000,000,000,000,000,000,000,000,000,000

The Law of Gravity

$$F = \frac{mMG}{R^2}$$

Remember Boyle's Law?

$$P \propto \frac{1}{V}$$

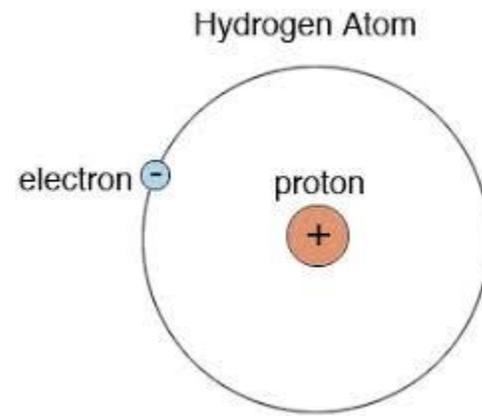

Einstein's famous equation

$$E = MC^2$$

We are star dust?

[Star dust.m4a](#)

The hydrogen atom

Where's all the anti-matter?
